

Maria Zadnepryanets - Software Developer

I am a full-stack developer with three years of professional experience and four years of open-source contribution. While my expertise lies primarily in JavaScript technologies, particularly React and React Native, I am eager to further develop my backend skills.

My colleagues have praised me for being a reliable team member and for always looking for the best solution to a problem. For my part, I enjoy learning new things and working in a team.

Work Experience

10.2022 - 05.2024

Consultant, [Wunderdog GmbH](#)

I had several front-end assignments:

- Initially, I was tasked with maintaining the company website and enhancing its accessibility.
- As part of a cross-functional Scrum team I implemented new features for an internal portal, adhering to an established design system and maintained existing features.

Tech stack: React, React Hooks, TypeScript, styled components, Cypress, React Testing Library, Gatsby, Contentful, Redux (Toolkit).

11.2020 - 09.2022

Fullstack Developer, [Dampsoft GmbH](#)

My primary responsibilities included:

- maintenance, troubleshooting, and resolving user-reported bugs,
- developing new features spanning from the mobile app to the Sinatra and/or Ruby on Rails backend

Soft Skills

- Persistence & Patience
- Teamplayer
- Strong Work Ethic
- Problem-Solving

Education

Master in Computer Science

SPb State Polytechnic University (RU),
1999 - 2005

Specialist Degree in Management

SPb State Polytechnic University (RU),
1999 - 2005

Master in Project Management

Fachhochschule Dortmund (DE),
2014 - 2017

Download: [resume\(en\)](#)

I want to point out a few things that happened while I was at Athena:

- I upgraded React Native to a newer version, conducting essential refactoring and updating packages,
- my role transitioned from junior full-stack developer to a mid-level,
- from November 2020 to April 2022, the department's primary working language was German.

Tech stack: React, React Native app (iOS only), Typescript, Ruby on Rails, Sinatra.

01.2020 - 01.2020

Freelancer/volunteer, [Quarteera e. V.](#)

My assignment involved developing a website according to the provided designs.

Tech stack: Hugo, HTML, CSS.

04.2019 - 06.2023

Open Source Developer, [drip \(cycle tracking app\)](#)

As part of the team, I handled various tasks including app maintenance, bug fixing, feature development, app releases, work plan preparation, and grant application writing.

I am especially proud of my work in coding the app's new design. Additionally, I made contributions to developing the project website and implementing unit testing.

Tech stack: React Native, Redux, Mocha, React Native Testing Library.
